

Teachers say:

I would gladly do this again.
My students benefited such a lot
by all the work they did.

I must confess
that the experience
is rewarding.

My students had never
had this type of experience so it
was new and interesting to make new
friends and share experiences
with other people.

I liked the contact
with the other countries.

I liked making up stories.

I liked every single thing.
It was fun!!

I liked the joy of
making something together!
